RINGS SIZE GUIDE

Please set this guide to 100% scale and print it on A4 paper. You can put a credit card or bank card on the line below to verify the accuracy of the printed dimensions. If the length of the card fits exactly in the line segment, the scaling is accurate.

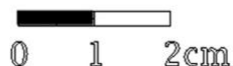

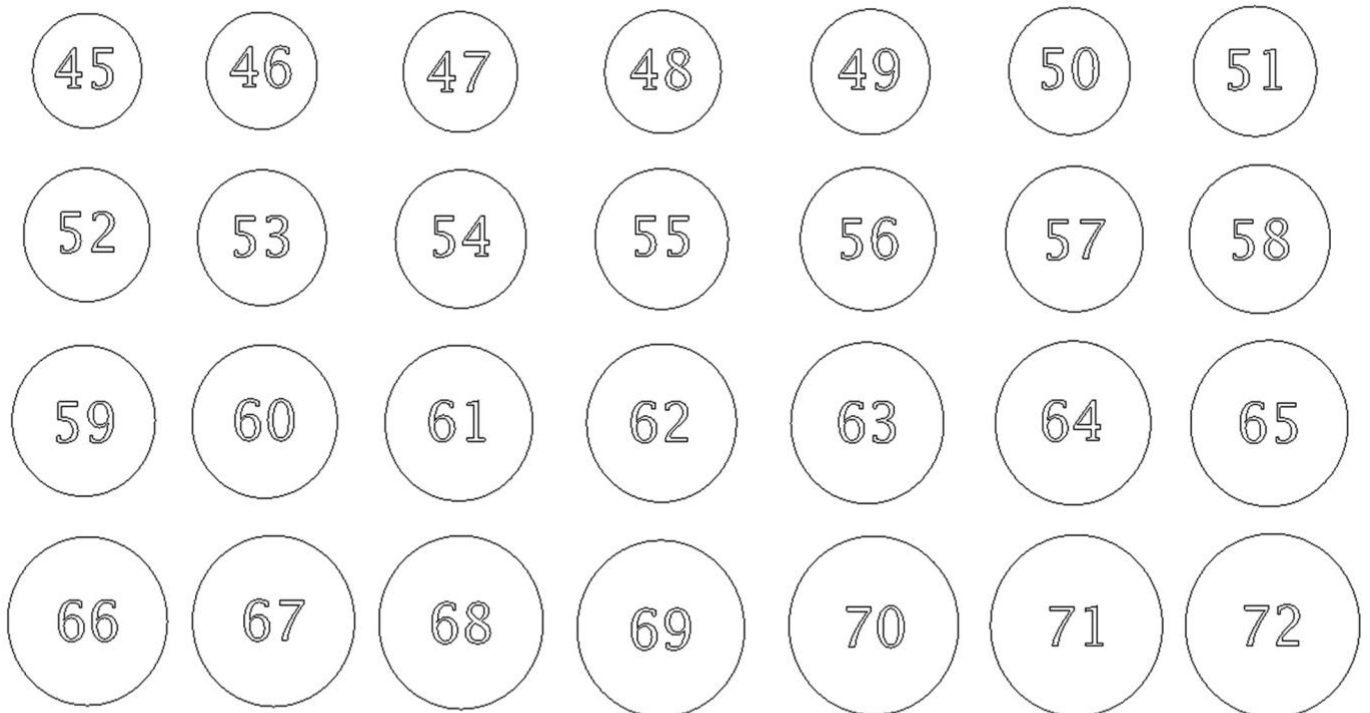

Now measure the size of your ring:

Take the ring you would like to measure.

Place it flat on the top of the circle below as accurate as you can.

While checking from above, the circle has to touch as accurate as possible the inner edge of the ring.

If you are hesitating between two sizes, we recommend you to choose the larger one, eventually double check your ring size at any jewellery boutique.
